By Kerwin Mathew

Createspace, United States, 2014. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.DESCRIPTION OF BOOK The brain is a wonderful creation of nature which is very complex and little understood. It is said that we only utilize about ten per cent of our full mental capacity, with the other 90 per cent being untapped. What a waste! If we could make better use of our brains, more of our problems would be solved, more wonderful things would be invented, and the world would definitely be the better for it. This book is about making the brain better, stronger and more efficient. The author has been experimenting with certain forms of brain training which have proven helpful and would like to share all this in this book. This book would be a useful guide for those who are keen on self-development and those taking IQ and aptitude tests such as Mensa, SAT, GRE and GMAT. The author has been a trainer for GRE candidates as well as candidates for other important national exams, many of whom have done very well. The tips and techniques for brain development and tackling IQ and...
