

Takt in Modern Education

By Shoko Suzuki

Waxmann Verlag GmbH Nov 2010, 2010. Buch. Book Condition: Neu. 218x154x23 mm. Neuware - Takt is a mediator between theory and practice and a technique to support the judgment and decision making of a practitioner. It also enables judgment or decision making for taking the most appropriate action for the Situation with the right timing, in a way consistent with theory, when theory has been augmented to something like a repository of wisdoms that can be utilized in the field of practice. By using Takt, a teacher can let the talent hidden in each student blossom most effectively. Takt is what helps in integrating theory on the one hand and the situation in the field on the other hand and in bearing the fruit of wisdom that is useful for current life. I found that Takt was derived from phronesis (practical wisdom) of the ancient Greeks. In music, Takt is closely related to rhythm and in art, it enables the creation of beautiful shapes in accordance with the golden ratio by segmenting time and space. Also, Takt refers to the tactile sense, which is one of the most basic senses of humans, and is a source of wisdom necessary for...
