

## Defense Electronics Information Technology Series: Modern signal spectral analysis(Chinese Edition)

Filesize: 4.47 MB

### ***Reviews***

*It is really an amazing publication that I actually have possibly study. It is actually packed with knowledge and wisdom You will not really feel monotony at whenever you want of your time (that's what catalogs are for regarding in the event you request me).*

To download **Defense Electronics Information Technology Series: Modern signal spectral analysis(Chinese Edition)** PDF, make sure you refer to the link listed below and download the file or have accessibility to other information that are relevant to DEFENSE ELECTRONICS INFORMATION TECHNOLOGY SERIES: MODERN SIGNAL SPECTRAL ANALYSIS(CHINESE EDITION) ebook.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date :2012-07-01 Pages: 339 Publisher: Publishing House of Electronics Industry title: Defense Electronics and Information Technology Series: Modern signal spectrum analysis List Price: 59.80 yuan Author: Peter Stoica (Petre Stoica) published Social: Electronic Industry Press Publication Date: July 1. 2012 ISBN: 9787121174865 words: Pages: 339 Edition: 1st Edition Binding: Paperback: Weight: 558 g Editor's Choice Defense Electronics Information Technology Series: Modern signal The spectral analysis of the rich and innovative content and rigorous exposition. a high level in the field of signal spectral analysis textbooks. Defense Electronics Information Technology Series: Modern signal spectrum analysis suitable for signal processing. communications. electronics. radar. navigation. automatic control. and their professional high grade undergraduate and graduate students as teaching materials. is also relevant professional researchers a rare a reference book. Summary Defense Electronics Information Technology Series: Modern signal spectrum analysis describes the basic theory and method of the classical spectrum analysis and spectrum analysis. the main contents include the basic concepts of spectral estimation (auto-correlation. the energy spectrum and the power spectrum). non-parametric of spectral analysis (periodogram and correlogram windowing technology). rational spectral analysis (autoregressive moving average and autoregressive moving average method). line spectrum analysis (least squares estimation. the Yule-Walker and subspace methods). filtering control group method (improved filter bank. Capon method. APES). array signal processing (beam forming Capon method. parametric DOA estimation). the choice of the relevant matrix analysis. Cram6r-Rao bound theoretical and the model order The main conclusions. Each chapter of the book contains a large number reflects the spectral analysis of the latest research results and current research focus of supplemental content. and provide a lot of help readers insight into the performance of various methods of spectral...
