Nonlinear heating of a magnetoplasma In the following parts of this section, we give the results of the theoretical study of the heating of a magnetoplasma under the action of the electric field E_{oe} it in the microscopic (hydrodynamic) approximation. They are used for some numerical calculations, mainly of the temperature dependencies of the electrons at different altitudes Z of the ionosphere and different angular frequencies w , in particular, in connection with the orbit (Z 300 kin) of the TSS-1 mission (Section IV. I). However, by the general statement of this problem, the microscopic theory has difficulties from the very...
